

A black and white photograph of a woman with long, wavy hair sitting in the driver's seat of a car. She is looking out the window with a slight smile, holding a large white shopping bag and a smartphone. The background shows trees and a cloudy sky. A vertical red line is on the left side of the image.

WITH HUBBED

ABOUT HUBBED

HUBBED is a technology company with an Out of Home and Micro-Hub Network. Our technology has been designed to create cohesion between retailers, carriers, and consumers.

Our solutions facilitate a seamless parcel delivery experience for consumers. The Network enables e-commerce and omni channel retailers to offer **Click & Collect** and **Returns**. This means they can provide their consumers with more choice, convenience and control for parcel pick ups and drop offs. Our Network consists of 3000 locations that are open 24/7 and extended hours, therefore, consumers can pick up or drop off their parcel at a location and time that suits them.

Our vision is to transform the sustainability of last mile delivery.

Our Network achieves this by helping carriers and retailers reduce the number of vehicle trips through consolidated deliveries – reducing congestion on the road and therefore carbon emissions. **HUBBED** is **certified by the Carbon Reduction Institute of Australia**.

HUBBED has operated in Australia since 2014 and has expanded to additional markets, including New Zealand, Taiwan, and the Philippines. This year, expansion plans include 5 new markets across Asia.

THE HUBBED OUT OF HOME (OOH) NETWORK

HUBBED's Out of Home (OOH) Network is the leading parcel collection point network in Australia. It's a convenient network for parcel pick up and drop offs.

Our Network is cost efficient and sustainable for all stakeholders:

- **Retailers** can offer a sustainable delivery option to meet consumer demand and become certified by the Carbon Reduction Institute of Australia.
- **Carriers** reduce their carbon footprint by almost half (up to 0.47kg CO2e per kilometre) through delivery density to one location rather than several separate locations.
- **Consumers** who choose our services makes consolidated deliveries frequent and therefore, less vehicle trips made to homes.

We continue to expand our over-the-counter and locker locations worldwide, including South East Asia, the US, the UK and the Middle East.

We have 3000 locations which are open 24/7 and extended hours including BP, National Storage, Pack & Send, Wotso and independent retailers.

ABOUT HUBBED OOH LOCATIONS:

- Locations are selected based on HUBBED's strict compliance measures
- Secure locations
- Trained and professional store staff
- Reduce carbon emissions on delivery by almost 50% versus delivery to home addresses

CLICK & COLLECT

HUBBED Click & Collect is the alternative to traditional in-store Click and Collect, allowing retailers and marketplaces to offer their consumers another delivery option. Consumers can collect their parcels from one of our 3000 locations that are open 24/7 and extended hours.

Click & Collect is the sustainable option for both retailers and consumers as using our network reduces carbon emissions by almost 50% versus home delivery.
